

We're looking for a few good control freaks — or people who just like comfort and savings.

If you like the idea of saving energy and money and helping the environment, you should check out the nationally acclaimed EnergySelect program from Gulf Power. EnergySelect is a

free program that lets you optimize how you use power and adjust your settings from any internet-connected device.

How it works.

- Variable energy rates allow you to pay less 87 percent of the time.
- Online portal allows you to program your heating & cooling system, water heater and pool pump from anywhere.
- Smart thermostat puts you in control of your energy use.
- Your home's broadband internet with secure Wi-Fi provides the communication link between your home and Gulf Power.

To learn more, visit GulfPower.com/EnergySelect or call 877-655-4001.

Search for Gulf Power

Upgrade from gas. Get a free water heater. Make every bath better.

Upgrading to an electric water heater can help make your home more energy efficient. It's reliable, low maintenance and has a longer life expectancy than a gas water heater. With an electric water heater, a family of four can have all the hot water they need for about \$30 a month. Upgrade from gas and we'll give you a free electric water heater.

Call 1-877-655-4001 or visit MyGulfPower.com for more information.

Business Corner

The Small Business Connect tool is designed to be responsive to the needs of local businesses. By answering self-guided questions about your business needs, the online tool will link you to information and resources related to local industry, trade associations, hiring employees, education data and information about small business loans and grants. Visit GulfPower.com/business to use the free Small Business Connect online tool.
